RECOGNIZED HEALTH CARE AIDE (HCA) PROGRAMS
APPROVED SCHOOLS LIST June 2012

PREAMBLE:
The Health Care Aide Skills Initiative Steering Committee developed a sub-committee consisting of membership from post-secondary institutions, contracted and AHS operators to review several HCA curriculums across the country for equivalency to Government of Alberta licensed post-secondary institution using the Provincial Health Care Aide Curriculum.

This resulted in the “Recognized HCA Programs - Approved Schools List – June 2012" (herein called “Approved Schools List”). It is important to note the following:

- The committee that reviewed these curriculums has disbanded.
- The information on HCA programs was collected at a point in time.
- Is not meant to be exhaustive or prohibitive for any future HCA programs that might meet the criteria (see criteria below).
- If the education is not on the Approved Schools List, there are two options:
  
  **Option 1: (Preferred)**
  If the education is not on the Approved Schools List, the employer must complete a Competency Assessment Profile (CAP) tool; OR

  **Option 2:** (Not available within AHS, see Note below*)
  Using the Substantially Equivalent review questions the employer is responsible for reviewing the employee’s completed courses against the Health Care Aide Government of Alberta Provincial Curriculum for alignment and validation. This requires completion of standardized questions. If the employer is unsure of equivalencies, the employer must complete a Competency Assessment Profile (CAP) tool. *NOTE: AHS leadership has made a decision that AHS staff shall not review HCA curriculums for equivalency.*

SUBSTANTIALLY EQUIVALENT MAY ALSO BE GRANTED TO:
Graduates of an Alberta or Canadian nursing program (RN, LPN, RPN) who are working as a Health Care Aide.

Student nurses or nurses educated outside of Canada as follows:

- **Degree Nurses:** Domestic or foreign trained nurses may be considered substantially equivalent. Completion of a CAP is recommended if an employer has any concerns about the individual’s competency.

- **Nursing students:** who have completed a minimum of 100 hours of practicum is considered substantially equivalent. Therefore:
  - **LPN students** who have completed the first year of a Licensed Practical Nursing program and returning to their program are considered to be substantially equivalent.
  - **RN students** who have completed the second year of a Bachelor of Nursing program and returning to their program are considered to be substantially equivalent.

CRITERIA used to Determine Recognition of SUBSTANTIALLY EQUIVALENT

- The Health Care Aide Program should have a minimum of 500 hours of combined theory and practicum.
- An educational background deemed equivalent by the operator as compared to the approved Provincial Health Care Aide Curriculum.
RECOGNIZED HEALTH CARE AIDE (HCA) PROGRAMS
APPROVED SCHOOLS LIST June 2012

Health Care Aide PROGRAMS RECOGNIZED as SUBSTANTIALLY EQUIVALENT:
1. ABES (Alberta Business and Educational Services) - Personal care Assistant 1997 onward
